

Quality Policy

ADC Pest Management aims to provide a cost effective, quality service that maintains a focus on customer satisfaction, environmental awareness, workplace safety as well as the safe and judicious use of pesticides.

Our strategy is to continue developing our skills through the use of ongoing awareness and training in relation to industry best practice.

We aim to ensure our quality management system is maintained and certified to ISO 9001 standard. With this, we endeavour to continually improve our process and practices

Our goal is to increase our client base through the application and practice of this quality policy, gaining a reputation for quality performance and service in the industry.

The management are committed to this quality system, its policies and continuous improvement.

David Trlin

Director
